

PATRIOT CARBON

CLEAN AIR USA TESTIMONIAL

My name is Trice M. At the time I was introduced to the patriot PCO, I was a HVAC technician here in Texas. I had sold a patriot PCO at my company and in return was given one as a gift for my own home.

The patriot PCO was a total game changer for my family. My daughter, who is 8, at the time had habitually woke me up 2-3 times a week in the middle of the night with the same issues. "Daddy, I cant breath out of my nose" or "daddy, my throat hurts".

I installed this product and within 2 weeks, my daughter stopped waking me up. Her allergies drastically dropped in our home and I sleep through the night now... The patriot PCO will always be in my home.
